New North
Education Initiative

A MESSAGE FROM OUR PATRON

A good education is the great enabler, establishing a firm basis for positive life outcomes and the prosperity of individuals and our society generally. The challenge for schools is to prepare school leavers to take the next step toward their future – a future of work, a career and lifetime of learning. This future inevitably requires some form of training, post-school, either in VET or University, supported by a school experience that has provided the initial skills and background required to succeed.

The five schools that are collaborating as part of the New North Education Initiative are doing just that through focussing on individual needs, broadening access and enabling participation. This collective has developed an innovative approach to supporting the students, families and teachers in the Perth northern corridor to reach their full potential through a range of programs with strong community links that engage with education opportunities at many levels.

For students, the benefits include a broader range of ATAR and VET studies than would potentially be accessible in a single school, and a focus on reaching their potential through achieving excellence, in what they choose to pursue. For teachers, there are enhanced development and networking opportunities that support their professional aspirations and engagement with their discipline.

I am pleased to support the New North Education Initiative and encourage you to learn more about the opportunities and options available to enhance the educational outcomes of your community through what we have to offer.

Professor Arshad Omari

Patron, New North Education Initiative and

Deputy Vice-Chancellor (Academic), Edith Cowan University

NEW NORTH EDUCATION INITIATIVE

Increasing Opportunities

The New North Education Initiative (NNEI) is a collaborative partnership between Dianella Secondary College, Balga, Eastern Hills, Girrawheen and Morley Senior High Schools within the North Metropolitan Education Region. This unique partnership provides enhanced opportunities for students, and the best of educational delivery for young adult learning. This alliance enables students at these schools to access a wider breadth of Senior School curriculum choices with specialist teachers, while remaining attached to their home school campus and is in response to community demands for excellence in education.

NNEI - Purpose

- Enhanced curriculum breadth
- Comprehensive academic stream offerings
- Promotion of excellence in local schools
- Development of successful programs in local schools
- State of the art Vocational Education and Training options
- Access to three Trade Training Centres
- Quality professional development for teaching staff
- Close and active engagement with primary schools
- Strong, shared community links

The shared, cooperative curriculum delivery across five sites has attracted considerable local and state wide interest. Student achievement has improved through this alliance by enabling students at NNEI schools access to Senior Secondary Schooling curriculum choices beyond the limits of what is offered at their home school. Currently 100 students travel between schools to access courses of their choice.

What can you expect

The schools in the initiative deliver a range of courses across five campuses. The shared courses are offered in two blocks of two hours per week throughout the school year or as whole day courses in the specialist Trade Training Centres.

Students accessing the shared courses at NNEI schools are required to make their own travel arrangements at the start and end of the school day (to or from the host school). Travel between the host schools and home schools during the school day will be provided by the NNEI Bus. In the case of Eastern Hills Senior High School, travel arrangements are different because of the more distant location and nature of the delivery of the shared course offerings.

Students are invited to access a placement in a shared course at an NNEI school if their home school is unable to offer the course, or the student's choices do not fit the courses offered on their home school's timetable.

TRADE TRAINING CENTRES

The New North Education Initiative is leading the way in providing prevocational programs in Automotive, Building & Construction and Hospitality, to ensure students are knowledgeable and industry ready prior to seeking apprenticeships and pathways towards further training.

Building and Construction Trade Training Centre at Girrawheen SHS

CPC20220 Certificate II in Construction Pathways - Building Maintenance: Bricklaying/Tiling/Plastering *(Delivered in partnership with North Metro TAFE - RTO 52786)*

The Girrawheen SHS Certificate II in Construction Pathways is a one year, one day a week program available to students in Year 11 who are interested in pursuing a career in the Building and Construction Industry. The course is nationally recognised, delivered by North Metropolitan TAFE and enables students to gain direct experience and skills in many facets of the building and construction industry while still working towards their secondary graduation. The program is suitable for students who:

- have a passion and a commitment to the building and construction industry
- would like a quicker and more meaningful transition into either work or training
- enjoy hands on learning and wish to enhance their life skills.

The Certificate II in Construction Pathways is the industry's preferred pathway for students seeking entry into an apprenticeship or traineeship in industry. Completion of the course will give students the opportunity of making a successful transition from school to full time employment or further training.

The Hospitality Training Centre at Dianella Secondary college

SIT20416 Certificate II Kitchen Operations
(Delivered in partnership with Hospitality Group Training - RTO 0386)

The Dianella Secondary College Hospitality Trade Training Centre offers students in Year 11 a unique opportunity to complete a Certificate II in Kitchen Operations. Currently, Dianella is one of only a few schools with the facilities and trainers approved to deliver this course. This program is suitable for highly motivated students who have a passion for hospitality and would like to pursue an industry pathway.

The pathway links include:

- Certificate III Hospitality
- Certificate III Commercial Cookery
- Hospitality industry apprenticeship
- Hospitality industry apprenticeship

Automotive Pre-apprenticeship at Morley SHS

AUR20520 Certificate II in Automotive Servicing Technology
(Delivered by Morley SHS RTO 50638)

The Morley SHS Automotive Pre-Apprenticeship is a flexible learning program available to students in Year 11 who want to gain direct entry into the world of work or training while still working towards their secondary graduation. The program is suitable for students who:

- have a passion and a commitment to the automotive industry
- would like a quicker and more meaningful transition into either work or training

A Certificate II in Automotive Servicing Technology will give students the opportunity of making a successful transition into full time automotive apprenticeships, other traineeships, further TAFE training or full time employment. All students who successfully complete this national qualification will have their indentured period of an automotive apprenticeship reduced by six months.

AUR20520 Certificate II in Automotive Servicing Technology is a course which has no academic prerequisite requirements however, successful entry is only achieved upon review of a student's current school attendance and behaviour (ABE) data. Applicants are also required to attend an interview conducted by a selection panel. Students will complete this school-based course over two years.

Certificate II in Applied Fashion Design & Technology at Girrawheen SHS (delivered in partnership with North Metro TAFE – RTO 52786)

The Girrawheen SHS Certificate II in Applied Fashion Design & Technology is a two-year, one day a week course available to Year 11 students interested in pursuing a career in the fashion design industry. The course is nationally recognised and enables students to begin their study pathway in fashion design with a focus on Indigenous culture and textile design. The course combines creativity with practical skills, as well as providing the building blocks to further your studies in fashion, such as garment design, textile development, screen printing and fashion drawing. The certificate leads to post school study pathways including Certificate III in Design Fundamentals and Diploma of Applied Fashion Design and Merchandising.

NNEI COURSES

If you would like to apply for an NNEI course of study, please see your Senior School Course Advisor for further information.

BALGA SENIOR HIGH SCHOOL
